- OUTER SHEATH : Green PVC:6.0 mm ϕ · Heat Resistive : 90°C

40m/1-reel

JAN CODE : 4562182-351067

● The [Golden Strada] was started at 2006 Winter CES Historically, but silently. But after Good reviews were appeared by several audio magazines, which mentioned the Superiority of the Coloidal Liquid soaked Cables, 2006 became the First Booming Year of our Golden Strada Cables.

After the first Speaker Cable, we started to enter Line Cable named Golden Strada #201 which use Gold alone particles, for the Coloidal Liquid which was soaked on the OFC Conductors. Now we come to our latest Dual Line Cable, named [Music Strada #207].

We, at Nanotec-Systems, tried to use thinner density Coloidal Liquid & Electrical Conductive PVC for this new Line Cable, which can sound more Vivid & more Natural than ever made by us. This Dual Core Line Cable, also, Low-priced, so everyone can obtain who has the passion to listen good music with less-expensive cost.

● Plug sets for Line Cable is indispensable. Also, Plugs are very important part for Sound Quality. We used our time for selection the Plugs for this cable finish.

This Small but high quality RCA plugs made by FURUTECH are used very widely in the World. #207/F1-RCA1.0 [207F1R1.0] & #207/F1-RCA1.8 [207F1R1.8] are using Rhodium plated conductors & #207/F2-RCA1.0 [207F2R1.0] & #207/F2-RCA1.8 [207F2R1.8] are using Gold plated conductors. Rhodium plated conductors sounds very detailed & Gold plated conductors sounds mild but natural sound. For the XLR connectors, we selected Neutrik Gold plated type as a world standard sound.
