- Vibration Absorb : Cotton Strings ● Shield : Copper Foil + Drain : 0.12 mmφ x 7-Strings (OFC)
- Outer Sheath : Violet PVC : Dia. 6.0 mmφ · Heat Resistive : 90°C

● Our First Line(audio) Cable which was released in 2006 was Golden Strada #201. In 2006, First Speaker Cable [Golden Strada #79] (Feb.) & our First Power Cable [Golden Strada #301] (Nov.) were also released. These were our First Step of the [Golden Strada Series] history. We could completed [Golden Strada #201nano3] & [Music Strada #207] Line Cables, and this time, we will release Newest Line Cable utilizing Japan Original [HiFC] Conductor, which was developed by Hitachi Metal Co. Lately. This material blended very small amount of Titanium used to control the rest Impure materials other than the Copper. The Combination of the [HiFC] & our Nano-sized Gold & Silver colloidal liquid made the Sound very Charming & Natural. We, Nanotec Systems recommend this New Line Cable [Music Strada #208] strongly to use for Pure Audio Analog Line Cable, but also, for Digital Cables, as much as Electric Music Instruments or Microphone Cable & Car Audio Line Cables. Our Latest New Cables [Music Strada #208] & [SP#Mk-4EX] will let your Audio Life more Enjoyable.

#208/F1-RCA1.0 [208F1R1.0]

#208/F1-RCA1.8 [208F1R1.8]

#208/F2-RCA1.0 [208F2R1.0]

#208/F2-RCA1.8 [208F2R1.8]

#208/N1-XLR1.0 [208N1X1.0]

#208/N1-XLR1.8 [208N1X1.8]

## Music Strada #208

\*Other than 1.0m/1.8m Length are Made by Order.  
Please ask to Dealer or Importer.

©[Music Strada #208] which Conductor made of [HiFC] can make very nice Line Cables, with High Quality Plugs.

●We selected from World Widely used RCA & XLR for this [Music Strada #208] terminated version. For RCA Connector, FURUTECH's Small-sized but High Quality Rhodium Plated & Gold Plated version and for XLR, NEUTRIK's Gold Plated version, for High Quality Sound, as much as Relaiable for a long term.

Rhodium Plated RCA PLUG sounds very Clear & Sharp and Gold Plated RCA or XLR Plug sounds Soft but Clear. Each models sound very natural and State of the Art quality by the Combination of Nanotec-System's original Pure Gold & Silver nano-particles Colloidal Liquid & HiFC Conductors.

The Price is Not Hot, so much, but the Sound Quality is very Good, that may be good much for your System.

As I mentioned, above, other than 1.0m/1.8m Length are available as Made by Order. Please ask to Importer or Dealers.

\*[HiFC] is a Resisterd Trade Name by Hitach Metal Co. which was developed with very small amount of Titanium in Pure Copper to controle of the Impue Materials in the Copper for Better Sound Quality.
