

*Music Strada #211*

©Lately, Japan Original Audio Products are standing out, very much, we think.

Especially, PC-Triple C conductor are gathering World wide attention of Audio-philes in many cases. This material was developed to replace the discontinued of the production of PC-OCC. This [PC-Triple C] is using "Forging Technic", but we should remind the Japanese traditional Technic making Japan Original Sword/Katana. PC-Triple C is made with Hitting more than 20,000-times when it starts to make the Original Conductor Bar before the drawing process.

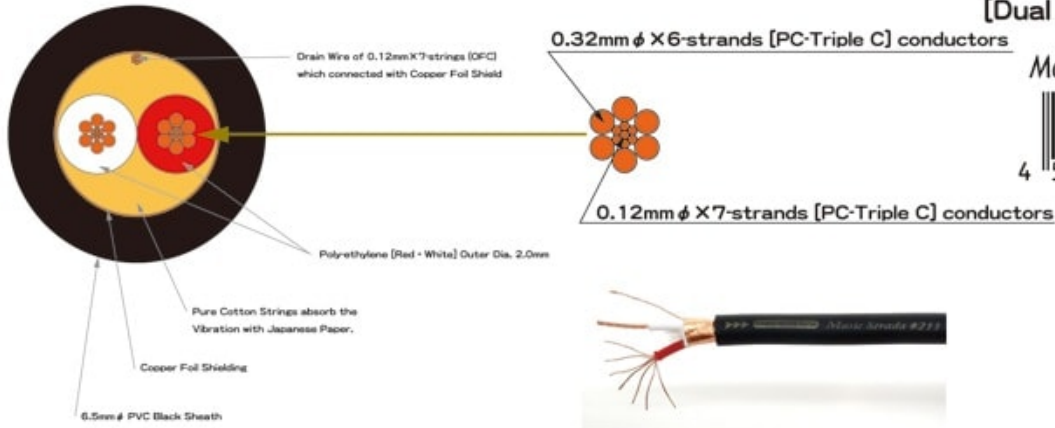

**NEW PROD.**

**2015-DEC.**

**NEWEST LINE CABLE by NEWEST CONDUCTOR MATERIAL**

# Music Strada #211

[Dual Core Shield Cable]

Model No. MS211

40m/1-reel

\*Terminated Version will be Released, soon\*

◎ Line Cables which connect important Source Signal (such as CD PLAYER) & after Amplifier, that is the Most Important & Delicate Connection part of the Block Diagram of the System.

We, at Nanotec Systems started to apply latest [Nano-Chemical Technology] for AUDIO Sound Improvement. 2006, we released our first Speaker Cable (Golden Strada #79), Line Cable (Golden Strada #201) and Power Cable (Golden Strada #301) applying the world first cables which introduce the Nano-sized Gold Particles in the Natural Oil dispersed. Many Criticism praised our Success of the application on the Conductors & Cables.

Now, it is the 10th anniversary of the Golden Strada series of Audio Cables.

On this occasion, we will release our New Line Cable named [Music Strada #211] which features Japan Original New Cable Material Technology, [PC-Triple C] conductor. As you may know, [PC-OCC] which was world boast Japan Original Cable Technology Idea, but regrettably discontinued in 2013, so many request to make new technological approach to replace the PC-OCC. Now we can use [PC-Triple C] which use New Idea to refine the Conductor Material.

We decided to use 0.12mmφ×7-strings of PC-Triple C & 6-strings of 0.32mmφ to achieve our Ideal Sound Character & Sound Purity. Lets Listen!!!!  
Ofcause, our Nano-Chemical Technology is working, together.

Please Experience the Latest  
 Japanese Original New Cable Technology &
