Audio Professionals will be Satisfied with this

POWER STRADA 7 PRO

Ultra High Cost performance Ratio

10th Anniversary of Golden Strada

● The Importance of the Power Supply of Audio/ Visual components is discussed very much as granted matter by the Articles or the Designers. The Power Cable is the Important Component to supply Clean & Powerful Energy to the Power Supply. We at Nanotec-Systems have realized such Power Cables by applying our unique & the world's first Nano-sized Gold & Silver Particles which are dispersed in the Squalane oil that was soaked on the Pure Copper Conductors.

This [POWER STRADA 7 PRO] is the Combination of our Power Strada #307 & FURUTECH FI-15 Plus & AET PSE-018HG for the achievement of the Very High Performance with Reasonable Price.

- Sectional Area of the Conductors : $5.522 \text{ mm}^2 \times 3$
- Colloidal Liquid : Gold= 80% Silver=20% · 3-times High Density
- Isolation : Audio Grade PVC+Electromagnetic wave absorption PVC (Outer Sheath)
- Length : 1.8m
- Plugs are Covered with Heat Shrink Tubes
