

# POWER STRADA 2J NEW

model : PS2JN[1.8]

4 562182 352057

● We Nanotec Systems started the 1-st Spekaer Cable with the name of Golden Strada #79 in 2006, so 2016 is our 10th anniversary with the World Customers. We are going to continue our effort to develop new & better products, for the future.

This [POWER STRADA 2J NEW] is our entry model of the terminated Power Cable, with New IEC connector, to improve the Stability for the Better Power transmission. We selected Improved Furutech's [FI-15 Plus] for the IEC (female)connector. We also applied our idea of [SIDE WINDER 2] to improve the Vibration Absorbing of the Cable, itself & the Connectors of both Ends of the Cable.

With this POWER STRADA 2J NEW you will understand our Philosophy of our Cable Design Concept.

For this cable, we are using our [GOLDEN STRADA #302nano3] to get the stability of the Power Transmission which has 3.398mm /1-string & the Gold/Silver nano-sized micro particles dispersed in natural oil which soaked on the pure copper conductors.[SEE BACK SIDE] We hope you will enjoy your Audio Visual life with this Superb High Cost Performace cable.
