©Optical Discs [CD/DVD/BD/LD] CLEANING & COATING LIQUID

[Nano Clean Za]
CLEANING & COATING LIQUIDS for Optical Discs

- These Liquids were developed for Optical Discs such as CD/DVD/BD/Laser Disc’s Cleaning & Coating. You can experience Dramatic Effect of Improving the Sound & Picture Quality. We also recommend to use for Re-writable Discs, such as CD-R/RW, DVD-R/RW and BD-R/RE.
- [Nano Clean Za] contains Cleaning Liquid (N-1), Coating Liquid (N-2a) and Wiping Paper (5-pcs.). (N-1) & (N-2a) or Wiping Paper (NW-1) is available, separately.

[NW-1]
NANOTEC WIPING PAPER
30-sheets in the Box

We recommend this High-tech Wiping Paper for using with [Nano Clean Za], [Nano Pure +] [CUG-1] to get Maximum Performance of these Liquids. [NW-1] contains 30-sheets of Wiping Paper.

©ANALOG DISC CLEANING LIQUID

[Nano Clean A-1]

- This Nano Clean A-1 was developed by Black Disc Enthusiast who loves the Sound of Analog Discs very much. By reflecting & investigating the Process of Analog Disc Production, we found the need of Removing the thin film on the Discs, which masks the Pure Sound which is grooved.

©ELECTRICAL CONTACT ENHANCER LIQUID

- These unique Liquids have Nano-sized Gold or Silver micro particles dispersed in Deep-sea Shark Oil solves the Electrical Contact Points Troubles.
